(Applies to service contracts over \$2,500 that are subject to the Service Contract Act and will be performed in the United States, District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, or the outer continental shelf lands.)

(vi) 52.222-19, Child Labor--Cooperation with Authorities and Remedies (Dec 2001) (E.O. 13126). (Applies to contracts for supplies exceeding the micro-purchase threshold.)

(vii) 52.223-5, Pollution Prevention and Right-to-Know Information (APR 1998) (E.O. 12856) (Applies to services performed on Federal facilities).

(viii) 52.225-1, Buy American Act--Supplies (May 2002) (41 U.S.C. 10a-10d) (Applies to contracts for supplies, and to contracts for services involving the furnishing of supplies, for use within the United States if the value of the supply contract or supply portion of a service contract exceeds the micro-purchase threshold and the acquisition--

(A) Is set aside for small business concerns; or

(B) Cannot be set aside for small business concerns (see 19.502-2), and does not exceed \$25,000.)

(ix) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (June 2000) (46 U.S.C. 1241). (Applies to supplies transported by ocean vessels.)

(A) Is set aside for small business concerns; or

(B) Cannot be set aside for small business concerns (see 19.502-2), and does not exceed \$25,000.)

(x) 52.232-33, Payment by Electronic Funds Transfer--Central Contractor Registration (May 1999). (Applies when the payment will be made by electronic funds transfer (EFT) and the payment office uses the Central Contractor Registration (CCR) database as its source of EFT information.)

(xi) 52.232-34, Payment by Electronic Funds Transfer--Other than Central Contractor Registration (May 1999). (Applies when the payment will be made by EFT and the payment office does not use the CCR database as its source of EFT information.)

(2) Listed below are additional clauses that may apply:

(i) 52.209-6, Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment (JULY 1995) (Applies to contracts over \$25,000).

(ii) 52.211-17, Delivery of Excess Quantities (SEPT 1989) (Applies to fixed-price supplies).

(iii) 52.247-29, F.o.b. Origin (JUN 1988) (Applies to supplies if delivery is f.o.b. origin).

(iv) 52.247-34, F.o.b. Destination (NOV 1991) (Applies to supplies if delivery is f.o.b. destination).

(c) FAR 52.252-2, Clauses Incorporated by Reference (FEB 1998). This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

<http://farsite.hill.af.mil>

(d) Inspection/Acceptance. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights--

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges that the Contractor can demonstrate to the satisfaction of the Government, using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this

purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(End of clause)

#### 52.225-9 BUY AMERICAN ACT—CONSTRUCTION MATERIALS (MAY 2002)

(a) Definitions. As used in this clause--

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

Domestic construction material means--

(1) An unmanufactured construction material mined or produced in the United States; or

(2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

Foreign construction material means a construction material other than a domestic construction material.

United States means the 50 States and the District of Columbia, U.S. territories and possessions, Puerto Rico, the Northern Mariana Islands, and any other place subject to U.S. jurisdiction, but does not include leased bases.

(b) Domestic preference. (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to the construction material or components listed by the Government as follows:  
[Contracting Officer to list applicable excepted materials or indicate "none"]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before

contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
<b>Item 1</b>			
Foreign construction material....	.....	.....	.....
Domestic construction material...	.....	.....	.....
<b>Item 2</b>			
Foreign construction material....	.....	.....	.....
Domestic construction material...	.....	.....	.....

Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any \_\_\_\_\_ (48 CFR \_\_\_\_\_) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

SCOPE OF WORK

For services of a contractor to supply all labor, equipment, materials, and accessories necessary to install deer fence in designated area in accordance with Statement Sec. C-Description/Spec/Work

ITEM	DESCRIPTION	QTY	UNIT	AMOUNT
01	Install a total of 8,200 ft. Woven Wire vehicle gates at two sites at Raystown Lake. (see attached maps and specifications)	1	ea	<u>\$ 26,650.00</u>
			total	<u>\$ 26,650.00</u>

**SECTION C**

**DESCRIPTIONS/SPECIFICATIONS/WORK STATEMENT**

**C.1. Deer Fence Installation – Scope of Work**

**C.1.1. Installation Requirements**

C.1.1.1. The Contractor will be required to assemble and install deer fences at the Raystown Lake Project in accordance with the Bid Specifications. See Appendix B, Bid Specifications.

C.1.1.2. The Contractor shall provide all labor, equipment, materials, and accessories necessary to construct and install woven wire deer fence in the Raystown Lake Project. See Appendix A.

C.1.1.3. The Contractor may be limited to a designated entry and exit area to avoid conflicts with park visitors. Any conflicts that arise between the Contractor or his personnel and the visiting public will be addressed by the Contracting Officer or his/her Designated Representative.

C.1.1.4. The Contractor will be required to attend a pre-work conference prior to beginning work. The pre-work conference will be conducted at the Raystown Lake Ranger Office.

**C.2. Material and Equipment Requirements**

C.2.1. The Contractor will provide the following:

- All manual, electric or power driven equipment necessary to install deer fence
- All posts, wire, fasteners, and fastening boards
- Labor sufficient to install deer fence

C.2.2. Costs incurred due to damage(s) to any government facility caused by the Contractor and/or his employees will be the responsibility of the Contractor.

C.2.3. The Contractor will furnish support vehicles sufficient to meet the needs for transportation of personnel, equipment and supplies within and between job sites at the project.

C.2.4. Government Furnished Materials. The Corps of Engineers shall furnish:

- Key to gate for entering and exiting management area

C.2.5. Contractor is responsible for one 8' gate at each fence area.

### **C.3. Contractor Equipment and Safety**

C.3.1 Contractor equipment may be inspected and approved by the Contracting Officer or his authorized representative prior to use. All applicable items must have operable safety equipment as specified in EM 385-1-1, Safety and Health Requirements Manual, dated 3 September 1996, available in the Raystown Lake Office.

C.3.2. All contractor employees must have and use personal protective devices as specified in EM 385-1-1 dated 3 September 1996. That equipment includes, but is not limited to, hard hats, hearing protection, footwear and eye protection. Required items will be furnished at no cost to the Government.

### **C.4. Contract Period**

C.4.1. The installation shall commence within fourteen (14) days following the receipt of Notice to Proceed. All work is to be completed within twenty (20) weeks from the starting date. Services will be performed continuously as required by the Contracting Officer or his Authorized Representative during the contract period to accomplish the work. At the option of the Government, the contract period may be extended a maximum of thirty (30) days.

C.4.2. The Contractor is required to perform work between the hours of 7a.m. and 5p.m. Work performed other than previously specified is to be approved in advance by Contracting Officer.

C.4.3. The Installation will be considered successful and completed when the Contracting Officer conducts a Final Inspection of the deer fence.

**C.5. Invoicing and Payment**

The Contractor shall submit an itemized invoice after completion of the deer fence installation. The invoice will contain, at a minimum, the contractor’s name, address, contract number, date submitted and cost per bid item.

**C.6. Deductions**

All work shall be performed in an orderly fashion consistent with the specifications as outlined in C.1.1.1. and C.1.1.2. If any of the services do not conform with contract requirements, the Government may require the Contractor to perform the services again in conformity with contract requirements, at no increase in contract amount. When defects in services cannot be corrected by re-performance, the Government may (1) require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and (2) reduce the contract price to reflect the reduced value of the services performed.

**C.7. Default**

Default of the contract shall be considered for various reasons relating to nonperformance of the contractual specifications. Work not completed to specifications will be repaired at the expense of the contractor. When defects in services cannot be corrected by re-performance, the Government may (1) require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and (2) reduce the contract price to reflect the reduced value of the services performed.

**C.8. Insurance**

Pursuant to the contract clause entitled, Insurance—Work on a Government Installation, the contractor shall procure and maintain during the entire period of his performance under the contract the following minimum insurance.

Type	Amount
Comprehensive General Liability Bodily injury or death	\$500,000 per occurrence
Motor Vehicle Liability (for each vehicle) Bodily injury or death	\$ 200,000 per person \$500,000 per occurrence

Property Damage	\$20,000 per occurrence
Workers' Compensation and Employer's Liability	\$100,000 per person

Worker's Compensation and Employer's Liability: Contractors are required to comply with applicable Federal and State Worker's compensation and occupational disease statutes.

### **C.9. Final Inspection and Acceptance**

Acceptance of services is the responsibility of the Contracting Officer or his/her authorized representative (COR). The Contractor will provide a letter stating that all facilities have been installed according the manufacturers recommendations.

End of Section C

## **APPENDIX A**

### **BID SPECIFICATIONS FOR WOVEN WIRE FENCE TO BE INSTALLED AT RAYSTOWN LAKE**

#### **SCOPE OF WORK:**

The Corps of Engineers requires woven wire fence installation. Services shall include, but are not limited to the furnishing of all labor, superintendence, material, tools and equipment for woven wire fence as per attached installation guidelines.

#### **Project Location:**

Two areas comprised of approximately 5,000 lineal feet in clear-cuts in Penn Township, Huntingdon County, and approximately 3,200 lineal feet around improvement sale (site 2) in Juniata Township. See attached maps. Both sites are with a few hundred yards of service roads that are accessible by vehicles and trailers.

#### **Clearing Fence Area:**

The Corps of Engineers does not require a fence path to be created. Only those obstructions crossing the path of the fence or present or potential damage to the fence need to be cut. The fence may be constructed on the inside perimeter of the clear cut and trees may be used as poles or anchors.

#### **Fence Supports:**

The contractor will erect the fence by fastening the fence to posts or trees. No trees of a DBH(diameter at breast height) greater than 12 inches will have fasteners driven into them. All trees will be protected by having a 2 inch by 4 inch board placed between the fence and the tree and the fence attached to the board. When posts are used corner posts must be 6by 6 inch treated or 5 inch round posts. All other posts must be 4 inch treated. Post will be 12 inches

long and placed 36 inches in the ground. If guy wires are used they must be marked for safety. Maximum distance between fence supports will be no greater than 30 feet between post and 40 feet between trees.

Fence Materials:

The fence will be approximately 7 feet high using one 96 inch or two 48 inch rolls of galvanized steel woven wire. When using two rolls the fence will be fastened together every 3 feet. Wire fencing materials will have no more than 6 inches between stay wires and at least 20 graduated line wires. The top and bottom wires will be 12-1/2 gauge wire. No aluminum may be used in the construction of the fence. One gate per fenced clear cut will be installed.

Securing Fence Bottom:

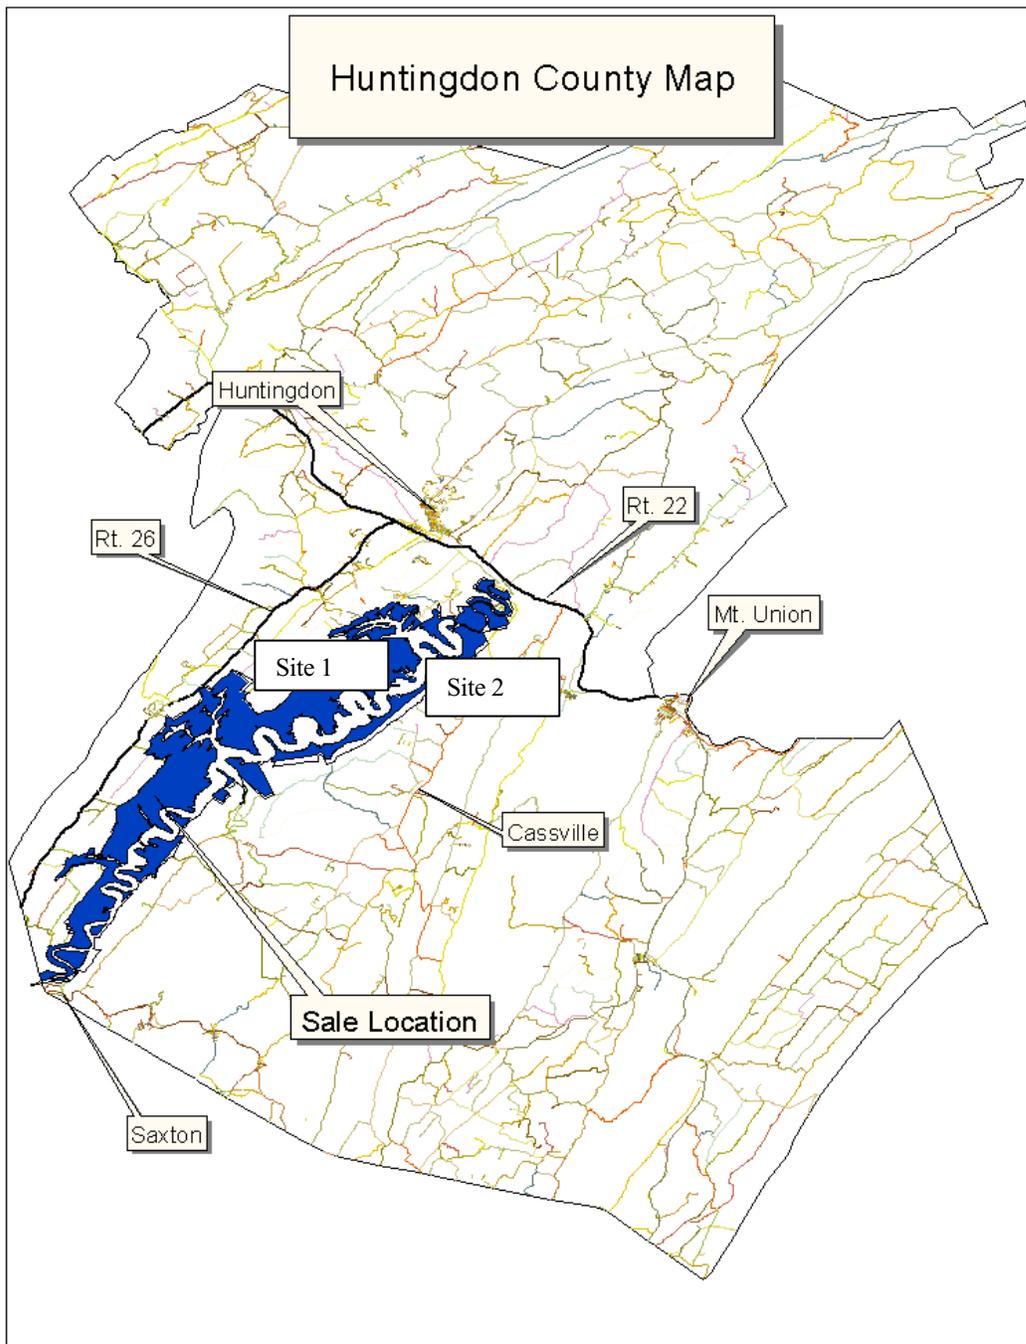

The fence must be constructed so that deer will be unable to crawl under the fence by leaving one foot overlap on the ground on the outside of the fence. The fence is to be anchored by the use of staples, stakes, rocks or deadwood.

Debris and Garbage:

The contractor will remove all debris and garbage generated during the construction of the fence

Gate

One vehicle through gate will be placed in each fenced area. Gate built to swing outward, 8 feet high by eight feet wide. Opening is flush with the ground surface. Gate frame is 1/2" metal rod welded together. Gate support is "T" type metal posts welded together. Hinges are 3/4" metal pipe.

WAGE DETERMINATION DECISION  
of the SECRETARY OF LABOR

The following wage determination will be used to conform with the requirements of the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) of the Contract Clauses\*:

=====  
 Unlisted classifications needed for work not included within  
 the scope of the classifications listed may be added after  
 award only as provided in the labor standards contract clauses  
 (29 CFR 5.5(a)(1)(ii)).  
 -----

In the listing above, the "SU" designation means that rates  
 listed under that identifier do not reflect collectively  
 bargained wage and fringe benefit rates. Other designations  
 indicate unions whose rates have been determined to be  
 prevailing.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can  
 be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a  
 position on a wage determination matter
- \* a conformance (additional classification and rate)  
 ruling

On survey related matters, initial contact, including requests  
 for summaries of surveys, should be with the Wage and Hour  
 Regional Office for the area in which the survey was conducted  
 because those Regional Offices have responsibility for the  
 Davis-Bacon survey program. If the response from this initial  
 contact is not satisfactory, then the process described in 2.)  
 and 3.) should be followed.

With regard to any other matter not yet ripe for the formal  
 process described here, initial contact should be with the Branch  
 of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
 Wage and Hour Division  
 U. S. Department of Labor  
 200 Constitution Avenue, N. W.  
 Washington, D. C. 20210

2.) If the answer to the question in 1.) is yes, then an  
 interested party (those affected by the action) can request  
 review and reconsideration from the Wage and Hour Administrator  
 (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
 U.S. Department of Labor  
 200 Constitution Avenue, N. W.  
 Washington, D. C. 20210

The request should be accompanied by a full statement of the  
 interested party's position and by any information (wage payment  
 data, project description, area practice material, etc.) that the  
 requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an  
 interested party may appeal directly to the Administrative Review  
 Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
 U. S. Department of Labor
